Fitness & Training:

We have classified Kilimanjaro as a level 5 expedition, for more information about our levels system [click here](#). We expect participants to have a very good level of fitness. Although this is not a technical climb, it is very steep in places and you will be gaining height very quickly. For many people it will be the hardest physical challenge of their lives. The group moves at a comfortable pace and nobody is ever left behind. Nevertheless, it is your responsibility to contact us if you have any concerns regarding your level of fitness, health or ability to complete the trek. We strongly recommend that you read the expedition itinerary in full before signing up to this challenge.

Hillwalking: Everybody is different, so we cannot recommend a specific pre-expedition fitness programme. However please remember the fitter you are the more you will enjoy the expedition. We would recommend hiking at least twice per month in preparation for this expedition. In the three months prior to departure try to include two long training hikes (6-8 hours at a comfortable, steady pace) on consecutive days with an 8kg rucksack. You or someone in your party should have walking experience and the necessary navigational skills whenever you go out on the hills.

Remember; getting time on your feet is more important than completing hikes quickly! This is about building stamina and endurance.

In the Gym: Although hillwalking is best, you should also aim to complete at least three cardio training sessions per week. The type of training is not important you just need to elevate your heart rate for 45 minutes to an hour. Typical sessions might be running, cycling, swimming, spin classes, circuit training, kettlebells or HIIT classes.

If you have low muscle mass in your legs, we suggest that you add strength training to your schedule. Developing muscle mass will protect your joints and this is very important especially on long descents.

If you have any old injuries, weak joints, soft tissue injuries or any other issues which affect your mobility we suggest you address these issues now. It goes without saying that if you are experiencing discomfort or pain during short training sessions the problem has the potential to become more serious when exercising for long durations on continuous days. Please visit your physiotherapist in an effort to address the issue and strengthen the weakened area.

Remember; it doesn't matter what kind of training you do – find something that you enjoy and you will stick with it!

[Back to Top](#)

Training Weekends:

We hold training weekends prior to all expeditions. You will meet an expedition leader, expedition doctor and your fellow adventurers! An experienced expedition leader will be giving a full expedition brief, leading two training hikes and offering expert advice on all aspects of the expedition including training, equipment, weather etc. These events are also a lot of fun and they take place in Glendalough, Co. Wicklow, which is a stunning location! When you book an expedition with Earth's Edge an account is generated for you on our website. You need to log on to your account to register for your training weekend.

[Back to Top](#)

Equipment:

You are responsible for having the necessary personal equipment you need for this trek. If you are buying any new equipment for this expedition such as a rucksack, boots, base layers etc., be sure to use it before departure. All gear should be well broken in to avoid blisters and chafing! When you sign up to an Earth's Edge expedition you are entitled to a loyalty card with our equipment partner; Great Outdoors. Great Outdoors has an excellent range of expedition equipment, very knowledgeable staff and is 100% Irish owned. The loyalty card entitles you to a 15% discount until the day your expedition departs and 10% discount thereafter. To apply for a loyalty card please forward your confirmation email and your postal address to web@greatoutdoors.ie and they will send you a loyalty card. You can also take a copy of the email into their George's Street Store and they will generate a loyalty card for you while you wait. Allow 10 minutes for this.

EQUIPMENT CHECKLIST	
Walking boots. If you are buying new boots for this trip please ensure they are well broken in before departure. Few things will make you more miserable during the trek than blisters.	
Runners or sandals (to wear in transit & around camp).	
Mid-weight hiking socks x 3. At least three pairs, some people choose to bring a pair of socks for each day of trekking.	
Lightweight liner socks (for summit night).	
Underwear, we recommend you bring enough so you are comfortable at all times. Synthetic rather than cotton underwear is advisable.	
Shorts x 1 (knee length or below).	
Lightweight trousers x 1.	
Synthetic/wool/silk long johns (for night time use and summit night).	
Waterproof trousers (N.B. make sure the trousers have zips to the knee at least).	
Long sleeve base layers x 2 (silk, wool, or synthetic).	
Short sleeve base layer x 2 (silk, wool, or synthetic).	
Mid-weight fleece x 2.	
A down jacket. It must be heavy weight with a hood (at least 600 grams in weight).	
Waterproof jacket.	
Waterproof poncho.	
A fleece hat to wear in the mornings and evenings.	
A balaclava/a buff.	
Sunglasses (category 3).	
A sun hat with a wide brim to cover the face and neck.	
A pair of lightweight wool or synthetic liner gloves.	
A pair of down mitts.	
Walking poles.	
Rucksack: This is a small rucksack (30 to 35 litres) to carry the equipment you will need while trekking such as your camera, spare jacket, waterproof jacket, water bottle and packed lunch.	
Duffel bag (90 litres) or large rucksack to carry your equipment while trekking. We recommend you use something strong and sturdy as this bag will be carried by the support team.	
Dry bags (If either your day bag or duffel bag don't have sufficient waterproofing and to separate your equipment in your bags).	
Water bottles (2 x 1 litre nalgenes) & water bladder (2 litre). You must have the capacity to carry at least three litres of water while walking. <i>*Please note that disposable plastic water bottles are illegal on the mountain.</i>	
A warm sleeping bag (comfort rating of -15°C or lower).	
Sun cream at least factor 30.	
SPF lip balm.	
Insect repellent, deet based products are best.	
Hand sanitiser. You need to have enough supplies for the duration of your expedition.	
Toiletries. N.B as little as possible, if you are travelling with friends try to share toiletries. * Wet wipes and a nail brush are very useful.	
Personal first aid kit. You need to have enough supplies for the duration of your expedition. We recommend you carry the following: <ul style="list-style-type: none"> • Rehydration salts 	

<ul style="list-style-type: none"> • Plasters • Compeed • Paracetamol • Ibuprofen • Buscopan • Throat lozenges • Nasal spray • Decongestant such as sudafed • Antibiotics suitable to treat traveller's diarrhoea <i>Azithromycin or something with similar coverage would be the most suitable antibiotic, please consult your doctor for up-to-date advice. The expedition medic will have a full medical kit to deal with issues of a more serious nature.</i> 	
<p>Personal medication.</p> <ul style="list-style-type: none"> • Malarial Prophylaxis (consult with your own GP or the Travel Health Clinic) <p>Please carry any medication you are currently taking on a regular basis such as:</p> <ul style="list-style-type: none"> • Asthma inhalers • Nutritional supplements • Blood pressure tablets <p>If you suffer or have suffered from any skin condition, bring appropriate creams such as:</p> <ul style="list-style-type: none"> • Canesten • Zovirax • Anusol • Hydrocortisone 1% 	
Small towel for washing.	
Personal snacks; although sufficient food is supplied throughout the trek you need to bring your own supply of high energy snacks for the expedition. Bring snacks you enjoy eating such as sweets, energy bars & chocolate.	
Headtorch with spare batteries.	
A spare set of clothes to wear after you finish the expedition.	
A photocopy of your travel insurance and passport.	
Your vaccination booklet.	
OPTIONAL ITEMS	
Diamox (tablet form not capsules); if you have decided to take it. For more information about Diamox its uses and side effects please refer to the information on AMS and Diamox in this document.	
We ensure that all drinking water provided to you is treated correctly but you may still wish to bring your own personal supply of tablets/drops for water purification such as iodine or chlorine. Powdered fruit juice can be used to disguise the taste of the purification.	
Swimming togs for the pool at the lodge after the trek.	
A sleeping bag liner (This is not essential but it helps to keep your sleeping bag clean and adds an extra season).	
Ear plugs.	
For glasses/contact wearers we advise bringing both glasses & contact lenses. Daily disposable lenses rather than monthlies are highly recommended.	
A camera.	
A book and/or writing paper.	
Hand warmer sachets.	

[Back to Top](#)

Flights:

For those that book a flight inclusive package with us, we will send the flight details via e-mail approximately two months prior to departure. We will also include information on the baggage allowance and packing instructions. For those that book a land only package please consult us prior to booking your flights. It is important you are on time for the trek briefing on the first day.

[Back to Top](#)

Description & Detailed Itinerary:

Kilimanjaro is not only Africa's tallest mountain standing at 5,896m, it is the highest free-standing mountain in the world. Kilimanjaro is in fact a huge crater known as Kibo, it is over 2km wide with several distinct cones -the highest being Uhuru Peak. The name Kilimanjaro is believed to come from Swahili, Kilima meaning 'hill' or 'little mountain' and Njaro meaning 'white' or 'shining' – a perfect reflection of this beautiful peak.

Our 12-day itinerary includes seven days of trekking on the Machame Trail, this time- frame allows for greater acclimatisation and increases the chance of a successful summit. This route is rich in biodiversity; we start in scrublands thick with African wildlife and then move into lush forests before experiencing the flowering alpine tundra at the higher elevations. Above 4,500m we encounter more snow and rock as we approach the summit.

Unlike most companies who spend their last night before summiting in Barafu camp we stay in Kosovo camp; a much quieter camp which is 120m higher up the mountain and cuts an hour off our summit night! This trek is suitable for people with a good level of fitness who enjoy challenging themselves. It is not a technical peak and no mountaineering experience is required to make it to the summit.

We are the only company in the world who send an International guide and doctor on our Kilimanjaro (5,896m) expeditions while keeping group sizes sustainably small. Sending an international guide and doctor on all our Kilimanjaro expeditions allows us to deliver an unrivalled level of safety and service for each and every one of our clients. Having smaller group sizes allows us to minimise our environmental impact and foster a stronger team dynamic.

The international guide and doctor work in tandem with our incredible local team of guides and porters to deliver an exhilarating experience each and every day on the trail! The morning ritual of native song and dance gets the blood pumping in the early sunlight and shouts of 'Pole, pole' (Slowly, slowly in Swahili) will accompany you throughout the day and help you reach the top! There's also a 'free-day' at the end of your trip where you can get some R&R or go on Safari in Tarangire National Park.

Day 1: Dublin to Tanzania.

Depart Dublin in the evening for Tanzania. Fly via Addis Ababa.

Day 2: Arrive in Tanzania.

Arrive in Kilimanjaro International Airport in the afternoon. Transfer to our hotel in Arusha and then relax for the rest of the day. Have an expedition brief before dinner. Overnight hotel.

Day 3: Drive Arusha to Machame Gate and trek to Machame Camp, 7 hrs.

After breakfast and meeting the local guides, we drive for just over an hour to Machame Gate (1,828m). At the gate we register with the National Park and then meet our team of porters. Once we start walking it's not long before we enter the tropical rain forest. Depending on how much rain there has been the trail can be quite muddy. After some time we stop for lunch and then continue to Machame Camp in the afternoon. By the time we reach the campsite the porters will already have set up your tent and the cook will be preparing dinner. Most people are quite tired after the first day's walk so we advise an early night. Overnight camp. Altitude 2,980m.

Day 4: Trek Machame Camp to Shira Camp, 6 hrs.

After breakfast we leave Machame Camp and follow a steep trail all the way to the Shira Plateau. We stop for plenty of rests and photos throughout the day. We are rewarded with great views of the western breach with its stunning glaciers. We set up camp in the early afternoon and relax for the rest of the day. Overnight camp. Altitude 3,840m.

Day 5: Trek Shira Camp to Barranco Camp, 7 hrs.

We leave Shira Camp and walk east towards Lava Tower, a huge rocky outcrop. After five hours of walking along a rocky trail we have lunch just before Lava Tower, allowing us extra time at this higher altitude. By walking to Lava Tower we reach 4,630m before walking back down to Barranco Camp. This jump in elevation greatly helps us with acclimatisation and is key to a successful summit attempt. After lunch we descend 680 metres over two hours to set up camp below the Barranco Wall. Today's route has stunning views throughout. Overnight camp. Altitude 3,950m.

Day 6: Trek Barranco Camp to Karanga Camp, 5 hrs.

The day starts by walking up and over the Barranco Wall which is not quite as hard as it looks! Upon reaching the top we are rewarded with great views of Kilimanjaro, the Heim Glacier and the surrounding landscape. The trail then enters

the Karanga Valley with many short ascents and descents as we cross many small streams. We set up camp just after the Karanga River. Spend the afternoon relaxing, chatting to fellow trekker, guides and porters. Overnight camp. Altitude 4,000m.

Day 7: Trek Karanga Camp to Kosovo Camp, 5 hrs.

After breakfast we walk along a ridge towards Barafu Camp. We set an easy pace to ensure good acclimatisation. As we gain altitude the landscape becomes completely barren and free of vegetation, a quite inhospitable environment. After about three and half hours we reach Barafu camp where we need to register with the park rangers. After a short rest we continue on a steep trail to reach the much quieter Kosovo Camp. Because of the elevation this campsite is colder than previous camps but the views are amazing. We spend the afternoon resting, eating and preparing for tomorrow's summit day. Your expedition leader will give you a full summit brief in the afternoon. Go to bed very early in preparation for the big day! Overnight camp. Altitude 4,800m.

Day 8: Trek Kosovo Camp to Uhuru Peak to Millennium Camp, 14 hrs.

We rise very early usually around 12:00a.m, have some tea and snacks and start walking. We keep a steady pace as we walk on steep scree to reach Stella Point (5,685m). For many trekkers, this six-hour walk is the toughest section of the day. We take a short rest at Stella Point to enjoy the sunrise. From Stella Point it is a further two hours on an often snow-covered route to reach Mt Kilimanjaro (5,896m)! All the effort is well worth it as the feeling of being on the roof of Africa is second to none! After a short stay at the summit we start the descent to Millennium Camp. After three hours we reach Kosovo Camp and enjoy a rest and some food. We then walk for a further four hours to reach Millennium Camp. Overnight camp. Altitude 3,832m.

Day 9: Trek Millennium Camp to Mweka Gate and drive to Arusha, 6 hrs.

After a hot breakfast we walk downhill for six hours and finish our trek at Mweka Gate. From the gate we drive back to Arusha and enjoy a well earned hot shower. The rest of the day is spent resting tired bodies by the pool. In the evening enjoy a celebratory meal and some drinks at the hotel. Overnight hotel.

Day 10: Free Day in Arusha.

Free day to relax by the pool, explore Arusha or go on safari. Overnight hotel.

Day 11: Depart for Dublin.

Our flight is not until the evening so you have most of the day to relax or do some more exploring of Arusha. In the evening we depart for Dublin. Fly via Addis Ababa.

Day 12: Arrive in Dublin

Arrive back in Dublin in the early hours of the morning. Expedition ends.

[Back to Top](#)

Expedition Costs:	Euro	Sterling	Dollar
Total costs excluding international flights. (Land only)	€3,299	£2,839	\$3,639
Total costs including international flights from Dublin.	€3,999	-	-

A deposit of €399/£399/\$399 is taken at the time of booking and the final balance is due two months prior to departure. Prices in Dollar and Sterling were accurate at the time of writing. For up to date prices based on today's exchange rate please visit our website.

Expedition Costs Include:

- International flights from Dublin to Kilimanjaro return economy class.
- Experienced Irish/UK expedition leader.
- Experienced Irish/UK expedition doctor.
- Training Weekend.
- Local guides, porters and support staff.
- All accommodation based on twin sharing in hotels and camping for the duration of the itinerary.
- All meals and drinking water are included except in Arusha where accommodation is based on B&B.
- A celebratory dinner at the end of the expedition.
- All transport throughout the expedition.
- National Park fees & local VAT.

- All group gear consisting of first aid kits, mountaineering equipment, cooking equipment etc.
- An Earth's Edge bandana for all participants.
- Use of state of the art tents and [Thermarests](#).

Expedition Costs Exclude:

- Personal travel insurance.
- Medical vaccinations.
- Tourist visas.
- Personal equipment.
- Personal spending and tips.
- Expenses of a personal nature like laundry, phone calls, alcohol, excess baggage charges and any costs arising out of unforeseen circumstances such as; bad weather, landslides, road conditions and any other circumstances beyond our control.

[Back to Top](#)

Spending Money & Tips:

We recommend that you carry USD\$350 dollars with you to Tanzania in mixed notes. There are some ATMs where you can withdraw cash using a credit card. Please try to bring dollars broken up into small notes. The reasons being that it is hard to find a place that will give you change for \$100 and also it is easier for the guides to divide the tips equally if they have lots of small notes. Also, try to bring dollars that were printed after 2004 if possible as these get a better rate of exchange in Tanzania.

Earth's Edge are a proud partner of [KPAP](#) (Kilimanjaro Porters Assistance Project). KPAP keep us up-to-date on best practice when it comes to tipping and porter welfare. They have advised us that at least \$170 per client is required for all local staff to receive an adequate tip. Please give your tip to the Expedition Leader and he/she will distribute the tip among all local staff. The recommended spending amount above includes the tip for the local staff.

[Back to Top](#)

Weather:

Temperatures on the expedition may vary from 0 to 30 degrees during the day and -20 to 10 degrees at night. It's best to be prepared for lower temperatures due to wind chill or the weather turning bad. Usually the days are hot and the nights are cold. You should be ready for inclement weather at all times as the weather can change rather quickly at high altitude. For accurate weather information please review these two websites;

Mountain Forecasts: www.mountain-forecast.com

Norwegian Meteorological Institute: www.yr.no

[Back to Top](#)

Altitude Considerations:

The human body is quite capable of adapting to a very wide range of barometric pressures and there is plenty of oxygen even at the highest point of this expedition. However, the process of adaptation or acclimatisation does take time and the most important rule is to gain height slowly. Keeping well hydrated is also a huge factor in avoiding AMS (Acute Mountain Sickness). You will be encouraged to drink at least three litres of water per day. Five litres per day is ideal. You should eat well, snack regularly between meals and do not under any circumstances try to diet on this expedition. This will keep your energy levels high throughout the expedition. Although frustrating at times, remember to keep your walking pace slow and steady which will in turn have the same effect on your heart rate. It is those who can set and maintain the correct pace on the approach days that are strongest at higher elevations.

AMS is brought on by lower oxygen levels at higher altitudes. Symptoms include breathlessness, headache, poor sleep, nausea & dizziness. AMS is treated simply by not ascending to higher elevations or in more severe cases descending to lower elevations, where in most cases the symptoms are quickly relieved. This itinerary has been designed to minimise the chances of you experiencing altitude sickness. Our staff are highly experienced in these matters and will be able to give you good advice to help minimise any temporary discomfort that you might experience. Please note it is common for most people to experience mild headaches at higher elevations. Always keep your guide informed on how you are feeling.

At high altitude, and especially in dry conditions, it is essential you protect your airway. This means walking with a bandana covering your mouth and nose, often in hot weather, or when you are breathing heavily. Getting used to covering your airway while walking takes some time, so you should practice prior to departure.

Diamox (Acetazolamide) is a carbonic anhydrase inhibitor. In simple terms Diamox causes the kidneys to excrete more bicarbonate which causes the blood to become more acidic. Acidifying the blood stimulates ventilation, which increases

the amount of oxygen in the blood which reduces the chances of getting AMS. We recommend all participants especially those who have had AMS in the past to take Diamox prophylactically (as a preventative) on this expedition, starting on the first day of trekking. Current guidelines suggest 125 mg twice per day (in tablet form not capsules). You should try taking Diamox for two days at some stage prior to departing Ireland to ensure you don't suffer any of the more serious side effects. Numbness and tingling fingers and toes are common but in some cases users can suffer from nausea, vomiting or diarrhoea. If you experience any of the latter three side-effects we would advise against using Diamox. Always consult and follow the advice of your own doctor about Diamox or any other medication.

[Back to Top](#)

Your Medical History:

When you book an expedition with Earth's Edge an account is generated for you on our website. You will receive login details for your account via email at the time of booking. You need to log on to your account and complete your medical declaration. Once you login, click on required information to access your medical declaration. It is for your own safety that we require you to disclose as much detail about your medical history as possible. The information you supply is treated with the strictest confidence. We will do our best to accommodate everyone on this expedition, but we do reserve the right to refuse participation if we feel your safety or that of the group may be compromised. All participants on Earth's Edge expeditions are required to have a consent form completed by their own doctor. We recommend you do this at the same time you see your doctor for travel vaccines (if required). The Doctor's Consent Form can be downloaded from your Earth's Edge account.

[Back to Top](#)

Your Dietary Requirements:

We will try our best to cater for those with dietary restrictions. If you have any dietary restrictions, please declare them when completing your medical declaration on your Earth's Edge account. You will receive login details for your account via email at the time of booking. You need to log on to your account and complete your medical declaration. Once you login, click on required information to access your medical declaration. We will organise for you to have a suitable meal on your flight where meals are supplied by the airline. It is not possible for us to source specialist gluten or dairy free products locally. We will endeavour to provide suitable alternative carbohydrates, for example potatoes or rice rather than bread. If you want to have specialist food like gluten free bread and pasta or lactose free milk you will need to bring them with you on the expedition.

[Back to Top](#)

Vaccinations & Prophylaxis:

We are not qualified to answer all your questions about travel health directly. We recommend consulting your GP or The Travel Health Clinic (www.travelhealth.ie) for the most up-to-date medical advice. You will find Vaccination and Prophylaxis Advice for this destination on your Earth's Edge account. When you book an expedition with Earth's Edge an account is generated for you on our website. You will receive login details for your account via email at the time of booking.

[Back to Top](#)

Tourist Visa:

All Irish participants are required to have a visa to enter Tanzania. You must have at least two free pages in your passport and ensure that your passport is valid for at least six months after you return to Ireland. At the time of writing this document, EU passport holders could obtain a tourist visa upon arrival in Tanzania. The visa fee is US\$50, payable in cash.

[Back to Top](#)

Travel Insurance:

It is your responsibility to ensure that you have sufficient personal travel insurance for this expedition. Your policy must provide cover for; a) medical injury or sickness b) trekking up to 5,900 metres (c) helicopter evacuation in an emergency situation, and d) repatriation to country of residence. You must declare any pre-existing medical conditions to your insurers and ensure you receive written confirmation that any pre-existing medical conditions are fully insured. We advise you to obtain travel insurance as soon as you book that will cover you for unforeseeable circumstances, such as illness or injury that might result in you not being able to take part in your expedition. We recommend Campbell Irvine for your travel insurance requirements as their policies cover a, b, c & d as above and include cancellation cover. To obtain travel insurance with Campbell Irvine go to www.campbellirvinedirect.com/earthsedge.

[Back to Top](#)

Safety Standards:

At Earth's Edge your safety is our priority. Your expedition leader is very experienced in the mountains and in international travel. All our expedition medics are qualified doctors with a keen interest in adventure travel and in expedition medicine. We use local guides, cooks, drivers and support staff of the highest standard. We employ local staff based on their qualifications, experience and references. Our doctor will have an extensive medical kit with them but please carry a basic first aid kit yourself too (as detailed in the equipment list). Always listen to your expedition leader and follow their instructions.

We advise all participants to do their own research on local laws and customs before travelling to Tanzania. Up to date travel advice can be found on the DFA website: www.dfa.ie/travel/travel-advice/a-z-list-of-countries/tanzania/.

Poor personal hygiene resulting in gastroenteritis (Delhi Belly) is the most common cause of illness on expeditions. The good news is that it is easily avoided if you remember to always wash your hands and apply hand sanitizer after going to the toilet and before touching food. Always use water fit for drinking to brush your teeth. While using showers or washing your face, try not to ingest any water. We recommend people eat as healthily as possible and take a multivitamin supplement and probiotics for one month prior to departure and during the expedition. This will help you adjust to changes in your diet and keep you healthy throughout the expedition.

About Tanzania:

Area:	947,303 sq km
Population:	56,255,755
Official Languages:	Swahili & English

'A few words of Swahili will prove very impressive!'

Hello:	Jambo.
Goodbye:	Kwa heri.
Thank you very much:	Asante sana.
My name is:	Jina langu ni.
No worries:	Hakuna matata.
Slowly/take it easy:	Pole-pole.
How are you?	Habari?
Crazy cool like a banana!	Poa kichizi kama ndizi.

Religion:	Christianity (30%), Islam (35%) & Others (35%).
Local Time:	GMT +3.00.
Local Currency:	Tanzanian Shilling (TZS).
Currency for Exchange:	US Dollars.
Where to Exchange:	In banks found in all major towns.
ATMs:	ATMs are limited but can be found in larger towns. It is best to carry cash in US Dollars to Tanzania.
Credit Cards:	Are generally not accepted

Up-to-date information concerning global exchange rates can be obtained at www.xe.com.

[Back to Top](#)

Local Staff:

Your local team will be made up of the head guide, assistant guides, porters and cooks. The guides and many of the porters will speak English very well. However, some of the porters may be trainees and therefore will have limited English. Please be patient and respectful towards all staff. The porters on Kilimanjaro are notoriously friendly and extremely hard working people and will go out of their way to assist you in reaching the summit. At Earth's Edge we take the treatment of our porters very seriously.

In December 2015 Earth's Edge became Ireland's first and only partner of the Kilimanjaro Porter Assistance Programme (KPAP) – www.kiliporters.org. KPAP is an American run Tanzanian based NGO, who are campaigning for porter welfare on [Kilimanjaro](#). As you will understand when [climbing Kilimanjaro](#) we are all so reliant on the hard work of the porters who carry loads on the mountain. They are the unsung heroes of all climbing teams and without their help we would not be able to experience this wonderful mountain. The reality is the porters are often impoverished Tanzanians who are dependent on this labour-intensive work to feed their families.

Unfortunately, the porters have very few working rights and are often exploited. All too often they are underpaid, poorly fed, overloaded and don't have adequate clothing for the mountain. This is where KPAP come in. KPAP send one of their staff on each of our [Kilimanjaro climbs](#) to independently audit how we are treating our porters. The four areas they focus on are as follows:

- That we provide our porters with three meals per day.
- That porters have adequate clothing for the mountain.

- That porters carry a maximum of 20kg on the mountain. This is typically made up of a 15kg load plus 5 kg of their own clothing.
- That the porters are paid properly and that we have a fair and transparent tipping process in place.

At Earth's Edge it is important to us that all of our clients and staff are clear on how the tip is divided on the mountain. We follow the instructions given to us by KPAP on how best to divide the tip.

Here is an example of how we divide the tip to give you an idea of what share of the tip each person gets on the mountain. Our average group size is 12 climbers plus our guide and doctor = 14 people. We recommend everyone tips USD 170. If everyone tips that will give us a total tip amount of USD 2,380 (12 x USD 170 + USD 340 as we tip on behalf of our guide and doctor). With a group that size our local team will be made up as follows and receive roughly the following share of tips.

Head Guide: 1 person	USD 150	x 1	=	USD	150
Assistant Guides: 6 people	USD 110	x 6	=	USD	660
Cooks: 2 people	USD 110	x 2	=	USD	220
Porters: 38 people	USD 36	x 38	=	USD	1,350
Total:					USD 2,380

Please note the above figures are a guideline based on an average of 12 clients. We ask our clients not to tip any local staff directly as it's important that all of the team get their fair share of the tips.

The single most important thing one can do as a climber on Kilimanjaro is to book your climb with a KPAP partner company. Unfortunately, porters are still all too often mistreated on Kilimanjaro. When you book with the KPAP partner company you can be sure the porters on your climb are treated fairly and your visit to Tanzania has a positive impact on the local people and economy.

There are two ways you can give back to the porters on Kilimanjaro. Firstly, at the end of your climb if you have any suitable trekking equipment that you no longer need you can give it to your expedition leader and they will arrange for it to be donated to KPAP. Secondly, when you return to Ireland you can send any suitable trekking equipment that you no longer need to Earth's Edge, 97C Morehampton Road, Donnybrook, Dublin 4.

Here is a list of items the porters could use: hiking socks, fleeces, water bottles, water bladders, base layers, sports jerseys, trekking pants, rain jackets, rain trousers, down jackets, ski jackets, ski pants, scarves, head torches, gaiters, hats, buffs, gloves, backpacks, walking boots, sleeping bags, sleeping bag liners, sleeping mats, duffel bags and dry bags.

Please remember we are only requesting equipment that you no longer need, so please don't feel pressurised in any way to donate equipment that you still have a use for.

If you have any questions about tipping or porter welfare, please contact James (jam@earths-edge.com) in the Earth's Edge office. [Back to Top](#)

Discounts and Photo Competition:

If you have travelled with us before please visit our [return customer](#) page for details on what discount you are entitled to.

If you have a friend who wants to travel with us please visit our [refer a friend](#) page for details on our referral programme.

If you are booking as part of a group please visit our [group discounts](#) page for details on what discount you are entitled to.

On each expedition, one person will win an Earth's Edge Down jacket and Gore-Tex jacket worth a total of €300. For more information and how to win please visit our [photo competition](#) page.

Forum:

We have a Facebook group called the Earth's Edge Forum. It's a great place to visit for sharing ideas, for asking questions and opinions of your fellow trekkers, for finding people to go on training hikes with and for generally having the fun! If you would like to be added please request that we send an invite to your email address.

[Back to Top](#)

- We run training weekends two months prior to each expedition, which includes a full expedition brief, two training hikes and expert advice from an Earth's Edge expedition leader and doctor.
- We have clear and transparent pricing. What's included and excluded from your package is made clear prior to booking.
- All of our office team travel on one expedition per year which means they can answer your questions based on first-hand experience.
- When you sign up to an Earth's Edge expedition you are entitled to a discount from our equipment partners at [Great Outdoors](#) to ensure you get the best gear for your expedition.
- We post daily updates of each expedition on our Facebook page so family and friends can monitor your progress.
