### Fitness & Training:

We have classified Annapurna Base Camp as a level 3 expedition, for more information about our levels system [click here](#). We expect participants to have a very good level of fitness. Although this is not a technical climb, it is very steep in places and you will be gaining height very quickly. For many people it will be the hardest physical challenge of their lives. The group moves at a comfortable pace and nobody is ever left behind. Nevertheless, it is your responsibility to contact us if you have any concerns regarding your level of fitness, health or ability to complete the trek.

Hillwalking: Everybody is different, so we cannot recommend a specific pre-expedition fitness programme. However please remember the fitter you are the more you will enjoy the expedition. We would recommend hiking at least twice per month in preparation for this expedition. In the three months prior to departure try to include two long training hikes (6-8 hours at a comfortable, steady pace) on consecutive days with an 8kg rucksack. You or someone in your party should have walking experience and the necessary navigational skills whenever you go out on the hills.

Remember; getting time on your feet is more important than completing hikes quickly! This is about building stamina and endurance.

In the Gym: Although hillwalking is best, you should also aim to complete at least three cardio training sessions per week. The type of training is not important, you just need to elevate your heart rate for 45 minutes to an hour. Typical sessions might be running, cycling, swimming, spin classes, circuit training, kettlebells or HIIT classes.

If you have low muscle mass in your legs, we suggest that you add strength training to your schedule. Developing muscle mass will protect your joints and this is very important especially on long descents.

If you have any old injuries, weak joints, soft tissue injuries or any other issues which affect your mobility we suggest you address these issues now. It goes without saying that if you are experiencing discomfort or pain during short training sessions the problem has the potential to become more serious when exercising for long durations on continuous days. Please visit your physiotherapist in an effort to address the issue and strengthen the weakened area.

Remember; it doesn't matter what kind of training you do – find something that you enjoy and you will stick with it!

[Back to Top](#)

### Training Weekends:

We hold training weekends prior to all expeditions, where you will meet an Earth's Edge expedition leader and your fellow adventurers! An experienced expedition leader will give a full expedition brief, lead two training hikes and offer expert advice on all aspects of the expedition including training, equipment, weather, and more. These events are also a lot of fun and they take place in Glendalough, Co. Wicklow, which is a stunning location! When you book an expedition with Earth's Edge an account is generated for you on our website. You need to log on to your account to register for your training weekend.

[Back to Top](#)

**Equipment:**

You are responsible for having the necessary personal equipment you need for this trek. If you are buying any new equipment for this expedition such as a rucksack, boots, base layers etc., be sure to use it before departure. All gear should be well broken in to avoid blisters and chafing!

When you sign up to an Earth's Edge expedition you are entitled to a loyalty card with our equipment partner; Great Outdoors. Great Outdoors has an excellent range of expedition equipment, very knowledgeable staff and is 100% Irish owned. The loyalty card entitles you to a 15% discount until the day your expedition departs and 10% discount thereafter. To apply for a loyalty card please forward your confirmation email and your postal address to [web@greatoutdoors.ie](mailto:web@greatoutdoors.ie) and they will send you a loyalty card. You can also take a copy of the email into their George's Street Store and they will generate a loyalty card for you while you wait. Allow 10 minutes for this.

[Back to Top](#)

EQUIPMENT CHECKLIST	
Walking boots. If you are buying new boots for this trip please ensure they are well broken in before departure. Few things will make you more miserable during the trek than blisters.	
Runners or sandals (to wear in transit & around camp).	
Mid-weight hiking socks x 3. At least three pairs, some people choose to bring a pair of socks for each day of trekking.	
Underwear, we recommend you bring enough so you are comfortable at all times. Synthetic rather than cotton underwear is advisable.	
Shorts x 1 (knee length or below).	
Lightweight trousers x 1.	
Synthetic/wool/silk long johns (for night time use and summit night).	
Waterproof trousers (N.B. make sure the trousers have zips to the knee at least).	
Long sleeve base layers x 2 (silk, wool, or synthetic).	
Short sleeve base layer x 2 (as above).	
Mid weight fleece x 2.	
A down jacket. It must be heavy weight with a hood (at least 600 grams in weight).	
Waterproof jacket.	
Waterproof poncho.	
A fleece hat to wear in the mornings and evenings.	
A balaclava/a buff.	
Sunglasses (category 3).	
A sun hat with a wide brim to cover the face and neck.	
A pair of lightweight wool or synthetic liner gloves.	
A pair of down mitts.	
Walking poles.	
Rucksack: This is a small rucksack (30 to 35 litres) to carry the equipment you will need while trekking such as your camera, spare jacket, waterproof jacket, water bottle and packed lunch.	
Duffel bag (90 litres) or large rucksack to carry your equipment while trekking. We recommend you use something strong and sturdy as this bag will be carried by the support team.	
Dry bags (If either your day bag or duffel bag don't have sufficient waterproofing and to separate your equipment in your bags).	
Water bottles and water bladder. You must have the capacity to carry three litres of water while walking.	
A warm sleeping bag (comfort rating of -10°C or lower).	
Suncream at least factor 30.	
SPF lip balm.	
Insect repellent, deet based products are best.	
Hand sanitiser. You need to have enough supplies for the duration of your expedition.	
Toilet paper (2 rolls) and tissues (no toilet paper is provided in tea houses)	
Toiletries. N.B as little as possible, if you are travelling with friends try to share toiletries. * Wet wipes and a nail brush are very useful.	

<p>Personal first aid kit. You need to have enough supplies for the duration of your expedition. We recommend you carry the following:</p> <ul style="list-style-type: none"> <li>● Rehydration salts</li> <li>● Plasters</li> <li>● Compeed</li> <li>● Paracetamol</li> <li>● Ibuprofen</li> <li>● Buscopan</li> <li>● Throat lozenges</li> <li>● Nasal spray</li> <li>● Decongestant such as Sudafed</li> <li>● Antibiotics suitable to treat traveller's diarrhoea <i>Azithromycin or something with similar coverage would be the most suitable antibiotic, please consult your doctor for up-to-date advice. The expedition medic will have a full medical kit to deal with issues of a more serious nature.</i></li> </ul>	
<p>Personal medication. Please carry any medication you are currently taking on a regular basis such as:</p> <ul style="list-style-type: none"> <li>● Asthma inhalers</li> <li>● Nutritional supplements</li> <li>● Blood pressure tablets</li> </ul> <p>If you suffer or have suffered from any skin condition, bring appropriate creams such as:</p> <ul style="list-style-type: none"> <li>● Canesten</li> <li>● Zovirax</li> <li>● Anusol</li> <li>● Hydrocortisone 1%</li> </ul>	
Small towel for washing.	
Personal snacks; although sufficient food is supplied throughout the trek you need to bring your own supply of high energy snacks for the expedition. Bring snacks you enjoy eating such as sweets, energy bars & chocolate.	
Headtorch with spare batteries.	
A spare set of clothes to wear after you finish the expedition.	
A photocopy of your travel insurance and passport.	
Your vaccination booklet.	
<b>OPTIONAL ITEMS</b>	
Diamox (tablet form not capsules); if you have decided to take it. For more information about Diamox its uses and side effects please refer to the information on AMS and Diamox in this document.	
We ensure that all drinking water provided to you is treated correctly but you may still wish to bring your own personal supply of tablets/drops for water purification such as iodine or chlorine. Powdered fruit juice can be used to disguise the taste of the purification.	
A sleeping bag liner (This is not essential but it helps to keep your sleeping bag clean and adds an extra season).	
Power adaptor – Plug <a href="#">type C</a> is used in Nepal.	
Ear plugs.	
For glasses/contact wearers we advise bringing both glasses & contact lenses. Daily disposable lenses rather than monthlies are highly recommended.	
A camera.	
A book and/or writing paper.	
Hand warmer sachets.

**Flights:**

Please consult us before booking your flights to ensure you arrive in time for the expedition briefing on the first day. It's essential you do not miss this meeting.

[Back to Top](#)

**Description & Detailed Itinerary:**

[www.earths-edge.com](http://www.earths-edge.com)

[support@earths-edge.com](mailto:support@earths-edge.com)

+353 (1) 5320869

Our 14-day itinerary includes 10 days of trekking. We begin our adventure in Pokhara, a city which was only accessible by foot until the 1960s. It lies on an old trading route between India and China and has become one of Nepal's main cities, it is said to be the tourism capital of the country! We spend our first day there preparing for the trail to come, relaxing and soaking up the bustling atmosphere of the city.

We follow a stunningly beautiful route to Annapurna Base Camp. Our first days on the trail are spent meandering through lush alpine forest, following the river and passing many beautiful waterfalls. We will also take time each day to stop in the picturesque villages along the trail and enjoy a refreshing cup of chai while we rest our legs and observe the traditional Nepalese way of life around us. We stay in small locally run tea houses each night where our hosts are always waiting with a warm stove and a hot meal!

The night we spend in Annapurna Base Camp (4,130m) is undoubtedly the highlight of the trek. We arrive into camp early in the afternoon and spend the remainder of the day relaxing in our picturesque surroundings and taking plenty of photos! We rise early the next morning to watch the sun come up and fill the amphitheatre of giant peaks that surround us.

After returning to Pokhara and completing our trek we spend some time in Kathmandu – the country's capital city and its largest. It is the centre of Nepal's economy, history, art and culture. There is so much to see and do and the busy city is a thrilling contrast to the sedate pace of our quiet mountain life on the trail.

We are the only company in the world who have an experienced expedition leader and doctor on our Annapurna Base Camp expeditions while keeping group sizes sustainably small. Having an expedition leader and doctor on all our Annapurna Base Camp expeditions allows us to deliver an unrivalled level of safety and service for each and every one of our clients. Having smaller group sizes allows us to minimise our environmental impact and foster a stronger team dynamic.

**Day 1: Arrive in Kathmandu.**

Arrive in Kathmandu (KTM). Transfer to the hotel to relax or explore the city. There will be a full expedition briefing in the afternoon. Overnight hotel.

**Day 2: Fly Kathmandu to Pokhara, 30 mins.**

In the early morning we take the short flight to Pokhara. Upon arrival we are greeted with a stunning Himalayan vista including Dhaulagiri (8,167m), Manaslu (8,163m) and Machhapuchhare (6,993m). A short bus journey takes us to our hotel close to Pokhara lakeside. We will spend the afternoon on our final preparations, which will include organising our equipment and permits and receiving a full expedition brief. We will also take time to enjoy the Pokhara shops and restaurants which boast fantastic views of Phewa Tal Lake. Overnight hotel.

**Day 3: Pokhara to Nayapul to Ulleri, 7 hrs.**

In the early morning we travel by bus to the trailhead at Nayapul. The first part of the trek is very serene as we pass through beautiful forest and irrigated fields, pausing to admire some waterfalls along the way. After we cross the Bhurundi Khola River and Tirkendhunga, we ascend Ulleri Hill with its seemingly endless number of steps. The village is located on top of the hill. Overnight tea house. Altitude 2,050m.

**Day 4: Ulleri to Ghorepani Upper, 6 hrs.**

As soon as we start walking today we are rewarded with spectacular views of Annapurna South (7,219m). We pass waterfalls, small villages and suspension bridges to reach Ghorepani. We spend the night at the higher end of the village which gives us panoramic views of the mountains including Annapurna South and Dhaulagiri. Overnight tea house. Altitude 2,750m.

**Day 5: Ghorepani to Tadapani via Poon Hill, 8 hrs.**

We rise early to trek to Poon Hill (3,210m) in time to see the sunrise over the mighty Himalayas. This famous view point offers one of the best views of the Himalayas including the Annapurna and Dhaulagiri ranges; Mustang and Pokhara. After taking plenty of photos we descend back to Ghorepani for breakfast. We then follow the trail all the way to Tadapani Village, walking alongside rivers and through forest. There may be a chance of seeing a monkey or two so keep your eyes peeled! Overnight tea house. Altitude 2,700m.

**Day 6: Tadapani to Chhumrong, 5 hrs.**

Today is another great day on the trail as we begin to settle into the rhythm of mountain life. The trail first descends through a large rhododendron forest and opens out into colourful terraced fields and then on to a suspension bridge. After crossing the bridge we tackle a steep ascent which gradually eases off to a gentle climb into Chhumrong. A shorter day means we can spend some of the afternoon in the local German bakery gorging on coffee and cake! Overnight tea house. Altitude 2,170m.

**Day 7: Chhumrong to Bamboo, 6 hrs.**

We leave Chhumrong and descend the steep steps to the Chhumrong Khola River where we cross a beautiful suspension bridge spanning the river. From there the trail climbs to Sinuwa and through a forest to reach Kuldihar. We have now entered the steep sided valley which leads up to Annapurna Base Camp. We are treated to fantastic views of Fish Tail Mountain, waterfalls and steep mountain walls. From Kuldihar it is a short descent down to Bamboo. Overnight tea house. Altitude 2,310m.

**Day 8: Bamboo to Deurali, 6 hrs.**

Today we gradually ascend over 900m to Deurali. The first part of the trail takes us through bamboo forest before opening out into pastures which offer great views of the big snow topped mountains. We then ascend to the Hinku cave, a famous shelter and landmark for climbers. From the cave the trail descends to a river before slightly climbing to Deurali. Overnight tea house. Altitude 3,230m.

**Day 9: Deurali to Annapurna Base Camp, 6 hrs.**

Today is a special day with some of the best views on the trek. The trail climbs steadily from Deurali to Machhapurchre Base Camp (3,700m). Today we can enjoy fantastic views of Hiunchuli (6,441m), Annapurna South (7,219m), Annapurna I (8,091m), Annapurna III (7,555m), Gandharva Chuli (6,248m) and Gangapurna (7,545m). From Machhapurchre Base Camp we continue to Annapurna Base Camp, which is truly a majestic place to be, with its stunning views and rich climbing history. Our early arrival for lunch ensures lots of time for capturing our stunning surroundings on camera. Overnight tea house. Altitude 4,130m.

**Day 10: Annapurna Base Camp to Dovan, 7 hrs.**

An early rise to watch the sun come up over the range of mountains is recommended. After having breakfast in Annapurna Base Camp we retrace our steps back to Dovan which is situated before Bamboo. Dropping nearly 800m we notice a big difference in the amount of oxygen in the air! Overnight tea house. Altitude 2,505m.

**Day 11: Dovan to Jhinu Danda, 8 hrs.**

A bittersweet day of trekking with two good ascents! The first set of steps is just after Bamboo and the second set brings us back to Chhumrong. The views are spectacular and the trail brings us to the bustling little village of Jhinu Danda which is full of colour and atmosphere. Overnight tea house. Altitude 1,760m.

**Day 12: Jhinu Danda to Siwal, 4 hrs. Drive to Pokhara.**

Our last day on the trail is an easy one as we walk through beautiful hilly countryside to reach the finishing point of our trek at Siwal. We meet our private bus which takes us along an interesting dirt road to Nayapul where we have some lunch. From Nayapul we continue by bus back to Pokhara where we can explore the city or relax. Overnight hotel.

**Day 13: Fly Pokhara to Kathmandu.**

We fly back to Kathmandu in the morning and check into our hotel. We then have some free time for resting and exploring the surrounding area. In the evening we enjoy a celebratory meal in one of Kathmandu's best restaurants. Overnight hotel.

**Day 14: Depart Kathmandu.**

Enjoy your last bit of relaxing or do some more exploring in Kathmandu before heading to the airport.

[Back to Top](#)

**Expedition Costs**

**Total Cost:** €3,299

- A **deposit** of EUR/USD/GBP 399 is taken at the time of booking to secure your spot.
- A **part payment** of EUR/USD/GBP 1,000 is due six months prior to departure.

- The **final balance** can be paid in instalments, but is due 90 days prior to departure.

For up-to-date prices in GBP and USD, based on today's exchange rate, please visit our website.

**Expedition Costs Include:**

- Internal flights in Nepal.
- Experienced expedition leader.
- Experienced expedition doctor.
- Training Weekend.
- Earth's Edge guides a full support team.
- All accommodation based on twin sharing in hotels in Kathmandu and Pokhara. On the trek you will be staying in teahouses where the room configuration is a mixture of twin rooms and dormitories.
- All meals and drinking water are included except in Kathmandu and Pokhara where accommodation is on a B&B basis.
- A celebratory dinner at the end of the expedition.
- All transport throughout the expedition.
- All group gear consisting of first aid kits, mountaineering equipment, cooking equipment etc.
- An Earth's Edge bandana for all participants.

**Expedition Costs Exclude:**

- International Flights
- Personal travel insurance.
- Medical vaccinations.
- Tourist visas.
- Personal equipment.
- Personal spending and tips.
- Expenses of a personal nature like laundry, phone calls, alcohol, excess baggage charges and any costs arising out of unforeseen circumstances such as bad weather, landslides, road conditions and any other circumstances beyond our control.

[Back to Top](#)

**Spending Money & Tips:**

We recommend that you bring €450 in cash and a debit/credit card with you to Nepal. There are ATMs throughout Kathmandu where you can withdraw cash using your card. If you intend on using your card on the trek, we recommend notifying your bank that you will be abroad and possibly using your card. On the trek, it is best to have some Rupees as it is difficult to get change for foreign currency when buying small items. It is possible to convert Euro to Nepalese Rupees in or near our Kathmandu hotel. Our recommended tip for Annapurna Base Camp is €200, please give your tip to the Earth's Edge expedition leader and they will distribute the tip among all of our Earth's Edge team in Nepal. The recommended spending amount above includes the tip for the Earth's Edge team.

In the unlikely event that flights to or from Pokhara are cancelled due to inclement weather, additional spending money may be required. The domestic airline will aim to get us on the next available flight when weather conditions are favourable, either later the same day or on one of the following days. We visit this region when the weather is most favourable but please be aware there can be bad weather during the trekking season from time to time. In some cases, the weather may be too bad for planes to fly but helicopters can operate, as they can fly in less favourable conditions. Should it be required, the cost of helicopter hire must be covered by you as changes due to weather are outside the control of Earth's Edge and as per our booking conditions, we don't cover costs associated with changes outside our control (Force Majeure). The cost of helicopter hire is not fixed but should cost in the region of \$300 - \$600 per person per flight.

Whilst on the trail, wifi and hot showers are available in some tea houses at a cost of approx US\$5 each. Drinking water is provided by Earth's Edge on each day of the trek, this water is filtered and treated with purification tablets. If you wish to change the flavour of the water it is recommended to use electrolyte tablets/sachets or add concentrated flavour drink.

[Back to Top](#)

**Weather:**

Temperatures on the expedition may vary from 10 to 30 degrees during the day and -10 to 10 degrees at night. It's best to be prepared for lower temperatures due to wind chill or the weather turning bad. Usually the days are hot and the

nights are cold. You should be ready for inclement weather at all times as the weather can change rather quickly at high altitude. For accurate weather information please review these two websites;

Mountain Forecasts: [www.mountain-forecast.com](http://www.mountain-forecast.com)

Norwegian Meteorological Institute: [www.yr.no](http://www.yr.no)

[Back to Top](#)

### **Altitude Considerations:**

The human body is quite capable of adapting to a very wide range of barometric pressures and there is plenty of oxygen even at the highest point of this expedition. However, the process of adaptation or acclimatisation does take time and the most important rule is to gain height slowly. Keeping well hydrated is also a huge factor in avoiding AMS (Acute Mountain Sickness). You will be encouraged to drink at least three litres of water per day. Five litres per day is ideal. You should eat well, snack regularly between meals and do not under any circumstances try to diet on this expedition. This will keep your energy levels high throughout the expedition. Although frustrating at times, remember to keep your walking pace slow and steady which will in turn have the same effect on your heart rate. It is those who can set and maintain the correct pace on the approach days that are strongest at higher elevations.

AMS is brought on by lower oxygen levels at higher altitudes. Symptoms include breathlessness, headache, poor sleep, nausea & dizziness. AMS is treated simply by not ascending to higher elevations or in more severe cases descending to lower elevations, where in most cases the symptoms are quickly relieved. This itinerary has been designed to minimise the chances of you experiencing altitude sickness. Our staff are highly experienced in these matters and will be able to give you good advice to help minimise any temporary discomfort that you might experience. Please note it is common for most people to experience mild headaches at higher elevations. Always keep your guide informed on how you are feeling.

At high altitude, and especially in dry conditions, it is essential you protect your airway. This means walking with a bandana covering your mouth and nose, often in hot weather, or when you are breathing heavily. Getting used to covering your airway while walking takes some time, so you should practice prior to departure.

Diamox (Acetazolamide) is a carbonic anhydrase inhibitor. In simple terms Diamox causes the kidneys to excrete more bicarbonate which causes the blood to become more acidic. Acidifying the blood stimulates ventilation, which increases the amount of oxygen in the blood which reduces the chances of getting AMS. We recommend all participants especially those who have had AMS in the past to take Diamox prophylactically (as a preventative) on this expedition, starting on the first day of trekking. Current guidelines suggest 125 mg twice per day (in tablet form not capsules). You should try taking Diamox for two days at some stage prior to departing Ireland to ensure you don't suffer any of the more serious side effects. Numbness and tingly fingers and toes are common but in some cases users can suffer from nausea, vomiting or diarrhoea. If you experience any of the latter three side-effects we would advise against using Diamox. Always consult and follow the advice of your own doctor about Diamox or any other medication.

[Back to Top](#)

### **Your Medical History:**

When you book an expedition with Earth's Edge an account is generated for you on our website. You will receive login details for your account via email at the time of booking. You need to log on to your account and complete your medical declaration. Once you login, click on required information to access your medical declaration. It is for your own safety that we require you to disclose as much detail about your medical history as possible. The information you supply is treated with the strictest confidence. We will do our best to accommodate everyone on this expedition, but we do reserve the right to refuse participation if we feel your safety or that of the group may be compromised. All participants on Earth's Edge expeditions are required to have a consent form completed by their own doctor. We recommend you do this at the same time you see your doctor for travel vaccines (if required). The Doctor's Consent Form can be downloaded from your Earth's Edge account.

[Back to Top](#)

### **Your Dietary Requirements:**

We will try our best to cater for those with dietary restrictions. If you have any dietary restrictions, please declare them when completing your medical declaration on your Earth's Edge account. You will receive login details for your account via email at the time of booking. You need to log on to your account and complete your medical declaration. Once you login, click on required information to access your medical declaration. We will organise for you to have a suitable meal on your flight where meals are supplied by the airline. It is not possible for us to source specialist gluten or dairy free products locally. We will endeavour to provide suitable alternative carbohydrates, for example potatoes or rice rather than bread. If you want to have specialist food like gluten free bread and pasta or lactose free milk you will need to bring them with you on the expedition.

[Back to Top](#)

### **Vaccinations & Prophylaxis:**

We are not qualified to answer all your questions about travel health directly. We recommend consulting your GP or The Travel Health Clinic ([www.travelhealth.ie](http://www.travelhealth.ie)) for the most up-to-date medical advice. You will find Vaccination and Prophylaxis Advice for this destination on your Earth's Edge account. When you book an expedition with Earth's Edge an account is generated for you on our website. You will receive login details for your account via email at the time of booking.

[Back to Top](#)

### **Tourist Visa:**

At the time of writing, EU passport holders were able to obtain a tourist visa upon arrival in Nepal. The visa fee is approximately US \$30 payable in cash upon arrival. You must have at least two free pages in your passport and ensure that your passport is valid for at least six months after you return to Ireland.

[Back to Top](#)

### **Travel Insurance:**

It is your responsibility to ensure that you have sufficient personal travel insurance for this expedition. Your policy must provide cover for; a) medical injury or sickness, b) trekking up to 4,130 metres, c) helicopter evacuation in an emergency situation, and d) repatriation to one's country of residence. You must declare any pre-existing medical conditions to your insurers and ensure you receive written confirmation that any pre-existing medical conditions are fully insured. We advise you to obtain travel insurance as soon as you book, that will cover you for unforeseeable circumstances such as illness or injury that might result in you not being able to take part in your expedition. We recommend TrueTraveller for your travel insurance requirements as their policies cover a, b, c & d as above and include cancellation cover. To obtain travel insurance with TrueTraveller go to <https://www.truetraveller.com/?tag=4544>.

[Back to Top](#)

### **Safety Standards:**

At Earth's Edge your safety is our priority. Your expedition leader is very experienced in the mountains and in international travel. All our expedition medics are qualified doctors with a keen interest in adventure travel and in expedition medicine. Each of our expeditions is supported by our Earth's Edge team of guides, cooks, drivers and muleteers/porters. We select our Earth's Edge team based on their qualifications, experience and references. Our expedition leaders and Earth's Edge team in each of our destinations are familiar with the locations of local medical services and hospitals. Our doctor will have an extensive medical kit with them but please carry a basic first aid kit yourself too (as detailed in the equipment list). Always listen to your expedition leader and follow their instructions.

We advise all participants to do their own research on local laws and customs before travelling to Nepal. Up to date travel advice can be found on the DFA website: [www.dfa.ie/travel/travel-advice/a-z-list-of-countries/nepal/](http://www.dfa.ie/travel/travel-advice/a-z-list-of-countries/nepal/).

Poor personal hygiene resulting in gastroenteritis (Delhi Belly) is the most common cause of illness on expeditions. The good news is that it is easily avoided if you remember to always wash your hands and apply hand sanitizer after going to the toilet and before touching food. Always use water fit for drinking to brush your teeth. While using showers or washing your face, try not to ingest any water. We recommend people eat as healthily as possible and take a multivitamin supplement and probiotics for one month prior to departure and during the expedition. This will help you adjust to changes in your diet and keep you healthy throughout the expedition.

[Back to Top](#)

### **About Nepal:**

Area:	147,181 sq km
Population:	29,000,000 approx.
Official Language:	Nepali
Religion:	Hinduism (80%), Buddhism (11%), Islam (4%), Kirat (4%), Christianity (0.5%) & Others: (0.5%).
Local Time:	GMT +5.45
Local Currency:	Nepali Rupee
Currency for Exchange:	EURO, GBP & USD.
Where to Exchange:	Most major towns – your Expedition Leader can advise you on arrival. Worn or ripped Rupee notes may prove difficult to use, so beware of this when accepting notes.
ATMs:	Available in larger towns and cities.
Credit Cards:	Accepted in larger outlets.

Up-to-date information concerning global exchange rates can be obtained at [www.xe.com](http://www.xe.com).

[Back to Top](#)

#### **Discounts:**

If you have travelled with us before please visit our [return customer](#) page for details on what discount you are entitled to.

If you have a friend who wants to travel with us please visit our [refer a friend](#) page for details on our referral programme.

If you are booking as part of a group please visit our [group discounts](#) page for details on what discount you are entitled to.

[Back to Top](#)

#### **Why Choose Earth's Edge:**

We are the only company in the world who have an expedition leader and doctor on all expeditions while keeping group sizes sustainably small.

- A highly experienced expedition leader leads each of our expeditions. This ensures we consistently deliver professionally run expeditions. They will be there to offer you expert advice throughout your trip.
- An expedition doctor accompanies each expedition to provide industry leading medical support. Should you fall ill or have an injury they will be there to provide immediate medical care.

To read more about our safety standards please visit our [safety page](#).

- We keep group sizes small to minimise our environmental impact and foster a strong group dynamic. Our maximum group size on most expeditions is 16 and our average group size is 13. On more challenging peaks our maximum group size is 12 and our average is 8.

Responsible travel is at the core of what we do at Earth's Edge and has been since our inception in 2007. As a certified B Corp we are committed to using business as a force for good to support our communities both locally and worldwide as well as create more environmental awareness. Visit our [B Corp page](#) to learn more.

We organise a number of environmental programmes and community projects here in Ireland and internationally. Our projects include;

- A scholarship to train porters to become guides on Kilimanjaro.
- Each year we plant 8 trees in Nepal for each person who travels with us in partnership with [Eden Reforestation Projects](#).

To read more about our sustainability practises please visit our [responsible travel page](#).

- We are a 100% Irish owned small business. Our MD, James McManus, is involved in the daily running of the business and also leads three to five expeditions per year.
- We are a fully licensed and bonded company. As we are based in Ireland, we are licensed with the Irish Aviation Authority (IAA) in Dublin, our licence number is 0711.
- Detailed risk assessment and management systems, including evacuation plans, are put in place prior to each expedition. Our Earth's Edge HQ team provide 24/7 phone support to each expedition.
- We run training weekends two months prior to each expedition, which includes a full expedition brief, two training hikes and expert advice from an Earth's Edge expedition leader.
- We have clear and transparent pricing. What's included and excluded from your package is made clear prior to booking.
- All of our office team travel on one expedition per year which means they can answer your questions based on first-hand experience.
- When you sign up to an Earth's Edge expedition you are entitled to a discount from our equipment partners at [Great Outdoors](#) to ensure you get the best gear for your expedition. [Back to Top](#)

#### **Expedition FAQ:**

Have you a question that wasn't answered on this information pack? If so, please visit our [FAQ page](#) for a full list of frequently asked questions. If you can't find your answer there please [contact us](#).
