### Fitness & Training:

We have classified Everest Base Camp and Island Peak as a level 7 expedition. For more information about our levels system [click here](#). With an average of six hours of walking per day, except on the days either side of base camp and the day we summit Island Peak which involve roughly 14 hours of trekking. Although this is not a technical climb, we do recommend people have experience of scrambling and abseiling. This is a relatively long trek and good stamina is essential. It is your responsibility to contact us if you have any concerns regarding your level of fitness, health or ability to complete the trek. We strongly recommend that you read the expedition itinerary in full before signing up to this challenge.

Hillwalking: Everybody is different, so we cannot recommend a specific pre-expedition fitness programme. However please remember the fitter you are the more you will enjoy the expedition. We would recommend hiking at least twice per month in preparation for this expedition. In the three months prior to departure try to include two long training hikes (6-8 hours at a comfortable, steady pace) on consecutive days with an 8kg rucksack. You or someone in your party should have walking experience and the necessary navigational skills whenever you go out on the hills.

Remember; getting time on your feet is more important than completing hikes quickly! This is about building stamina and endurance.

In the Gym: Although hillwalking is best, you should also aim to complete at least three cardio training sessions per week. The type of training is not important, you just need to elevate your heart rate for 45 minutes to an hour. Typical sessions might be running, cycling, swimming, spin classes, circuit training, kettlebells or HIIT classes.

If you have low muscle mass in your legs, we suggest that you add strength training to your schedule. Developing muscle mass will protect your joints and this is very important especially on long descents.

If you have any old injuries, weak joints, soft tissue injuries or any other issues which affect your mobility we suggest you address these issues now. It goes without saying that if you are experiencing discomfort or pain during short training sessions the problem has the potential to become more serious when exercising for long durations on continuous days. Please visit your physiotherapist in an effort to address the issue and strengthen the weakened area.

Remember; it doesn't matter what kind of training you do – find something that you enjoy and you will stick with it!

[Back to Top](#)

### Training Weekends:

We hold training weekends prior to all expeditions, where you will meet an Earth's Edge expedition leader and your fellow adventurers! An experienced expedition leader will give a full expedition brief, lead two training hikes and offer expert advice on all aspects of the expedition including training, equipment, weather, and more. These events are also a lot of fun and they take place in Glendalough, Co. Wicklow, which is a stunning location! When you book an expedition with Earth's Edge an account is generated for you on our website. You need to log on to your account to register for your training weekend.

[Back to Top](#)

### Equipment:

You are responsible for having the necessary personal equipment you need for this trek. If you are buying any new equipment for this expedition such as a rucksack, boots, base layers etc., be sure to use it before departure. All gear should be well broken in to avoid blisters and chafing! When you sign up to an Earth's Edge expedition you are entitled to a loyalty card with our equipment partner; Great Outdoors. Great Outdoors has an excellent range of expedition equipment, very knowledgeable staff and is 100% Irish owned. The loyalty card entitles you to a 15% discount until the day your expedition departs and 10% discount thereafter. To apply for a loyalty card please forward your confirmation email and your postal address to [web@greatoutdoors.ie](mailto:web@greatoutdoors.ie) and they will send you a loyalty card. You can also take a copy of the email into their George's Street Store and they will generate a loyalty card for you while you wait. Allow 10 minutes for this.

EQUIPMENT CHECKLIST	
Synthetic mountaineering boots. (This item may be available to rent upon request.) -Examples of suitable boots; La Sportiva G2SM, Scarpa Phantom 6000 or similar. -Examples of unsuitable boots; La Sportiva Nepal Extreme, Scarpa Mont Blanc, Meindl Island Pro or similar.	
Gaiters if your boots do not have a built-in gaiter. Rental boots typically do not come with built-in gaiters.	
12 point crampons (This item may be available to rent upon request.)	
Climbing helmet (This item may be available to rent upon request.)	
Walking ice axe (60 – 70cm): The ideal length of the ice axe depends on your height. Under 1.7m use 60cm, Between 1.7 & 1.9m use 65cm and over 1.9m use a 70cm tool. (This item may be available to rent upon request.)	
Sling (approx size 120cm x 10mm) x 2. (If you don't have slings, we will provide them for you.)	
Climbing harness & two screw gate carabiners. (If you do not have a climbing harness & two screw gate carabiners we will provide them for you.)	
Trekking boots. If you are buying new boots for this trip please ensure they are well broken in before departure. Few things will make you more miserable during the trek than blisters.	
Runners or sandals (to wear in transit & at lower altitude when not trekking).	
Mid-weight hiking socks x 3. At least three pairs, some people choose to bring a pair of socks for each day of trekking.	
Heavyweight hiking socks x 2.	
Lightweight liner socks (for summit night).	
Underwear, we recommend you bring enough so you are comfortable at all times. Synthetic rather than cotton underwear is advisable.	
Shorts x 1.	
Lightweight trousers x 1.	
Synthetic/wool/silk long johns (for night time use and summit night).	
Waterproof trousers (N.B. make sure the trousers have zips to the knee at least).	
Long sleeve base layers x 2 (silk, wool, or synthetic).	
Short sleeve base layer x 2 (as above).	
Mid-weight fleece x 2.	
A down jacket. It must be heavy weight with a hood (at least 600 grams in weight).	
Waterproof jacket.	
Waterproof poncho.	
A fleece hat to wear in the mornings and evenings.	
A balaclava/a buff.	
Category 3 or 4 sunglasses.	
A sun hat with a wide brim to cover the face and neck.	
A pair of lightweight wool or synthetic liner gloves.	
A pair of heavy mountaineering gloves.	
A pair of down mitts.	

Walking poles.	
Rucksack: This is a small rucksack (30 to 35 litres) to carry the equipment you will need while trekking such as your camera, spare jacket, waterproof jacket, water bottle and packed lunch.	
Duffel bag (90 litres) or large rucksack to carry your equipment while trekking. We recommend you use something strong and sturdy as this bag will be carried by the support team.	
Dry bags. To organise and water proof your equipment inside your bags.	
Water bottles: Three wide mouth 1 litre water bottles. If you wish to bring a water bladder to use at lower elevations you can but it will not work at high altitude so you need bottles.	
A warm sleeping bag (comfort rating of -15°C or lower).	
A sleeping bag liner (This helps to keep your sleeping bag clean and adds an extra season).	
Suncream at least factor 30.	
SPF lip balm.	
Insect repellent, deet based products are best.	
Hand sanitiser. You need to have enough supplies for the duration of your expedition.	
Toiletries, N.B as little as possible, if you are travelling with friends try to share toiletries. * Wet wipes and a nail brush are very useful.	
Toilet roll.	
Personal first aid kit. You need to have enough supplies for the duration of your expedition. We recommend you carry the following: <ul style="list-style-type: none"> <li>● Rehydration salts</li> <li>● Plasters</li> <li>● Compeed</li> <li>● Paracetamol</li> <li>● Ibuprofen</li> <li>● Buscopan</li> <li>● Throat lozenges</li> <li>● Nasal spray</li> <li>● Decongestant such as Sudafed</li> <li>● Antibiotics suitable to treat traveller's diarrhoea</li> </ul> <i>Azithromycin or something with similar coverage would be the most suitable antibiotic, please consult your doctor for up-to-date advice. The expedition medic will have a full medical kit to deal with issues of a more serious nature.</i>	
Personal medication. Please carry any medication you are currently taking on a regular basis such as: <ul style="list-style-type: none"> <li>● Asthma inhalers</li> <li>● Nutritional supplements</li> <li>● Blood pressure tablets</li> </ul> If you suffer or have suffered from any skin condition, bring appropriate creams such as: <ul style="list-style-type: none"> <li>● Canesten</li> <li>● Zovirax</li> <li>● Anusol</li> <li>● Hydrocortisone 1%</li> </ul>	
Small towel for washing.	
Personal snacks; although sufficient food is supplied throughout the trek you need to bring your own supply of high energy snacks for the expedition. Bring snacks you enjoy eating such as sweets, energy bars & chocolate.	
Headtorch with spare batteries.	
A spare set of clothes to wear after you finish the expedition.	
A photocopy of your travel insurance and passport.	
Passport Photo's x 2 for climbing permit.	
Your vaccination booklet.	
<b>OPTIONAL ITEMS</b>	
Diamox (tablet form not capsules); if you have decided to take it. For more information about Diamox its uses and side effects please refer to the information on AMS and Diamox in this document.	

We ensure that all drinking water provided to you is treated correctly but you may still wish to bring your own personal supply of tablets/drops for water purification such as iodine or chlorine. Powdered fruit juice can be used to disguise the taste of the purification.	
Power adaptor – Plug <a href="#">type C</a> is used in Nepal.	
Thermarest.	
Ear plugs.	
For glasses/contact wearers we advise bringing both glasses & contact lenses. Daily disposable lenses rather than monthlies are highly recommended.	
A camera.	
A book and/or writing paper.	
Hand warmer sachets.

### Flights:

For those that book a flight inclusive package with us, we will send the flight details via e-mail approximately two months prior to departure. We will also include information on the baggage allowance and packing instructions. For those that book a land only package please consult us prior to booking your flights. It is important you are on time for the trek briefing on the first day.

[Back to Top](#)

### Description & Detailed Itinerary:

We are the only company in the world who have an experienced expedition leader and doctor on our Everest Base Camp and Island Peak (6,189m) expeditions while keeping group sizes sustainably small. Having an expedition leader and doctor on all our EBC & Island Peak expeditions allows us to deliver an unrivalled level of safety and service for each and every one of our clients. Having smaller group sizes allows us to minimise our environmental impact and foster a stronger team dynamic.

Our 23-day itinerary first takes you on the historic trek through the Khumbu Valley to Everest Base Camp (5,385m) offering the best possible acclimatisation profile before we turn our attention to Island Peak. We move upwards through the valley at a slow, steady pace taking the time to meet the locals in the villages we pass and absorb the sights and scents of traditional Nepalese life. We stay in locally run tea-houses each night, enjoying the warm welcome of our hosts and the inviting heat of the stove as we remove our boots after a long day's trekking.

After spending our first 10 days trekking to Everest Base Camp we will be 'trek fit', acclimatised to life on the trail and prepared for our ascent of Island Peak (6,189m). Island Peak was named in 1953 by the Everest expedition team who could see the peak from Dingboche where it appeared as an island floating in a sea of ice. Climbing Island Peak has since been used by many mountaineers as a preparation peak before summiting Everest.

It is frequently referred to as a trekking peak, however the demands of a long summit night, much of which is spent on snow and ice using crampons and ice axes make this a tough challenge! We start in darkness in the early hours of the morning and ascend over 700m over mixed terrain. The last 200m are the most demanding and we use fixed ropes and ascenders to conquer the headwall and reach the summit ridge. The panoramic views of the 7,000m and 8,000m peaks surrounding you at the top make all the hard work worthwhile!

You will come away from this trek with a great appreciation of the Sherpa way of life, getting the opportunity to experience their unique mountain culture and traditions. We also spend time in Nepal's main city – Kathmandu. This bustling city is a melting-pot of ethnicities and a great contrast to the relaxed pace of life in the mountains.

### Day 1: Depart Dublin.

Depart Dublin for Kathmandu. Overnight flight.

### Day 2: Arrive in Kathmandu, Transfer to Ramechhap

Arrive in Kathmandu. Transfer to Ramechhap. Overnight tea house.

### Day 3: Fly Ramechhap to Lukla, 35 minutes; Trek Lukla to Phakding, 3 hrs

In the early morning we take the exciting flight from Ramechhap to Lukla. The views from the 14-seater planes are amazing. From Lukla we trek to the village of Phakding. The trail starts by descending Northwest to the village of Choblung in the Dudh Kosi Valley. From here we follow the Dudh Kosi River passing through Ghat and then into Phakding. Overnight tea house. Altitude 2,610m.

Page 4

**Day 4: Trek Phakding to Namche Bazaar, 8 hrs.**

After breakfast we start walking, following the Dudh Kosi River. After some time we reach the confluence of the Bhote Kosi and Dudh Kosi and cross a large suspension bridge. The trail then ascends through pine forest and some small meadows to reach the distinctive horse-shoe shaped village of Namche Bazaar. It's a tough day on the trail but the possibility of great views of Everest (8,848m), Lhotse (8,511m), Nuptse (7,879m), Ama Dablam (6,856m) and Taweche (6,542m) make all the effort worthwhile. Overnight tea house. Altitude 3,440m.

**Day 5: Rest and Acclimatisation Day in Namche Bazaar.**

As the name suggests, Namche is famous for its local market. After breakfast we climb to the ridge above the village to marvel at the panoramic views of the Khumbu peaks including Everest, Nuptse and Ama Dablam. If people are feeling strong we have the option of ascending further to the air strip above the village. We then visit the National Park museum with the option of visiting the Sherpa museum too. The rest of the day can be spent exploring this colourful village or relaxing in the tea house. Overnight tea house. Altitude 3,440m.

**Day 6: Trek Namche Bazaar to Phortse, 5 hrs.**

Today's route has some stunning views of the surrounding landscape, dominated by Ama Dablam, which towers over us for the day. Towards the end of the route we have a steep descent to the Dudh Kosi and then a big climb up a steep trail to reach Phortse. Overnight tea house. Altitude 3,950m.

**Day 7: Trek Phortse to Pheriche, 6 hrs**

Another stunning day on the trail, which offers views of Everest if the weather is clear. We ascend over 500 metres today so it's important to take it slow and acclimatise correctly. Today we walk above the tree line and experience a more barren but equally beautiful landscape. Overnight tea house. Altitude 4,371m.

**Day 8: Rest and Acclimatisation Day in Pheriche**

After a lazy start we go for an acclimatisation hike ascending the high ground near the village. We then return to the tea house for a hot lunch. The afternoon is free to relax and explore Pheriche. Overnight tea house.

**Day 9: Trek Pheriche to Lobuche, 6 hrs**

We start with a steep climb onto the ridge above Pheriche. Upon reaching the top of the ridge we are greeted with fantastic views of our route so far and Ama Dadlam. After about three hours we stop for lunch in Dughla and then ascend a long hill to reach the memorials for climbers who lost their lives climbing Mt Everest. The last section of the walk is quite flat and takes us right into Lobuche. Overnight tea house. Altitude 4,940m.

**Day 10: Trek Lobuche to Everest Base Camp to Gorakshep, 9 hrs.**

We start early and climb almost 300 metres to Gorakshep for lunch. The terrain is rough in places as we pick our way through the Khumbu glacier. From Gorakshep it's two and half hours to reach Everest Base Camp (5,364m). After eight days on the trail there is a real sense of achievement upon reaching base camp! After taking in the atmosphere and sights we walk back down to Gorakshep. Overnight tea house. Altitude 5,164m.

**Day 11: Trek Gorakshep to Kala Patthar to Pheriche, 10 hrs**

For those with the energy there is an optional early start to climb Kala Patthar (5,550m). It's a tough trail to the top but Kala Patthar offers some of the best views of Everest in the entire region. Afterwards we return to Gorakshep for breakfast. From Gorakshep we descend all the way back to Pheriche. Overnight tea house. Altitude 4,371m.

**Day 12: Rest & Skills Day in Pheriche**

Following all the hard work in getting to Everest Base Camp we take a rest day to recover. During the day we sort out our equipment for Island Peak and practice some rope skills. Overnight tea house.

**Day 13: Trek Pheriche to Chuckhung, 5hrs.**

Today we leave the main trail to Everest behind us and trek towards Chuckhung. This four hour walk allows us plenty of time in the afternoon for rest and preparing our climbing equipment. Overnight tea house. Altitude 4,700m.

**Day 14: Chuckhung to Island Peak Base Camp, 3 hrs.**

We spend the morning practicing our new rope skills with our climbing Sherpas. These skills are key to ensuring we move safely on the high slopes of Island peak and under the expert tuition of the Sherpas. We will have plenty of time to

make sure we are comfortable and competent with the ropes. Following lunch we start the short hike to base camp where we will spend our first night in tents. Overnight camp. Altitude 5,090m.

**Day 15: Base Camp to High Camp, 2hrs.**

Following a lazy start, we ascend to Island Peak High Camp. The steep trail climbs the lower slopes of Island Peak and offers up incredible views over the Imja glacier and lake. We arrive late afternoon and settle into the tents before dark. The Sherpa team will ensure you are well fed and hydrated before an early night to get some sleep for the push towards the summit. Overnight Camp. Altitude 5,500m.

**Day 16: Summit Day! 14 hrs.**

We rise early for an alpine start and begin the 700m ascent to the summit. Although there is some scrambling in places, the route is well used and easy to follow. We ascend a rocky spur to the crampon point at the base of the upper snow fields. As the sun rises we are treated to stunning views of the surrounding 8,000m peaks, Lhotse & Makalu. From the crampon point we move in rope teams, led by climbing Sherpas. We traverse the glacier, negotiating a safe route with the use of ladders and fixed lines to the base of the imposing head wall at 5,900m. From here the summit is visible almost directly above us. The steep head wall is climbed with the aid of fixed lines which lead all the way to the summit at 6,189m. From the top we can enjoy spectacular views of the Everest Region. We then retrace our footsteps back through high camp where we take a short break to refuel and rehydrate before continuing our descent to Chuckhung and a welcome bed in the tea house. Altitude 4,700m.

**Day 17: Spare Summit Attempt.**

A spare day in case of bad weather on Day 16.

**Day 18: Trek Chhukung to Tengboche, 6 hrs.**

Today we descend to Tengboche. The route offers amazing close-up views of Ama Dablam (6,856m) widely considered one of the most stunning peaks in the world. In the afternoon, we can visit Tengboche monastery the largest and most significant monastery in the region. Overnight tea house. Altitude 3,860m.

**Day 19: Trek Tengboche to Namche Bazaar, 4 hrs.**

From Tengboche we descend for one hour to reach the Dudh Kosi river. We then climb for over an hour and follow the river canyon to Namche Bazaar. In the afternoon, there is plenty of time for shopping in the market. Overnight tea house. Altitude 3,450m.

**Day 20: Trek Namche Bazaar to Lukla, 8 hrs.**

Our last day of walking always brings out mixed emotions. It's a long day with some steep downhill and uphill sections. There is plenty of time for reflection and to enjoy the last views of the highest mountains in the world. We say goodbye to our support team in Lukla and enjoy our last dinner on the trail. Overnight tea house. Altitude 2,850m.

**Day 21: Fly Lukla to Ramechhap, transfer to Kathmandu.**

We fly back to Ramechhap in the morning and transfer back to Kathmandu where we check into our hotel. We then have some free time for resting at the hotel or exploring the surrounding area. In the evening, we enjoy a celebratory meal in one of Kathmandu's best restaurants. Overnight hotel.

**Day 22: Kathmandu to Dublin.**

Enjoy a free morning in Kathmandu for some exploration and shopping. In the evening, we depart for Dublin. Overnight flight.

**Day 23: Arrive in Dublin.**

Arrive back in Dublin in the morning. Expedition ends.

[Back to Top](#)

<b>Expedition Costs:</b>	<b>Euro</b>	<b>Sterling</b>	<b>US Dollar</b>
Total costs excluding international flights. (Land only)	€4,799	£4,249	\$5,182
Total costs including international flights from Dublin.	€6,099	-	-

A deposit of €399/£399/\$399 is taken at the time of booking, a part payment of €1,000/£1000/\$1000 is due six months prior to departure and the final balance is due three months prior to departure. Prices in US Dollar and Sterling were accurate at the time of writing. For up to date prices based on today's exchange rate please visit our website.

**Expedition Costs Include:**

- Return international economy class flights from Dublin to Kathmandu.
- Internal flights in Nepal.
- Experienced expedition leader.
- Experienced expedition doctor.
- Training Weekend.
- Earth's Edge guides and full support team.
- All accommodation based on twin sharing in hotels in Kathmandu, tea houses on the trail and camping at higher elevations.
- All meals and drinking water are included except in Kathmandu and Ramechhap where accommodation is based on B&B.
- A celebratory dinner at the end of the expedition.
- All transport throughout the expedition.
- All group gear consisting of first aid kits, mountaineering equipment, cooking equipment etc.
- Climbing Permit for Island Peak.
- An Earth's Edge bandana for all participants.

**Expedition Costs Exclude:**

- Personal travel insurance.
- Medical vaccinations.
- Tourist visas.
- Personal equipment.
- Personal spending and tips.
- Expenses of a personal nature like laundry, phone calls, alcohol, excess baggage charges and any costs arising out of unforeseen circumstances such as bad weather, landslides, road conditions and any other circumstances beyond our control.

[Back to Top](#)

**Spending Money & Tips:**

We recommend that you bring €400 in cash and a debit/credit card with you to Nepal. There are ATMs throughout Kathmandu where you can withdraw cash using your card. If you intend on using your card on the trek, we recommend notifying your bank that you will be abroad and possibly using your card. On the trek, it is best to have some Rupees as it is difficult to get change for foreign currency when buying small items. It is possible to convert US Dollars to Nepalese Rupees in or near our Kathmandu hotel. Our recommended tip for Everest Base Camp and Island Peak is €200, please give your tip to the Earth's Edge expedition leader and they will distribute the tip among all of our Earth's Edge team in Nepal. The recommended spending amount above includes the tip for the Earth's Edge team.

In the unlikely event that flights to or from Lukla are cancelled due to inclement weather, additional spending money may be required. The domestic airline will aim to get us on the next available flight when weather conditions are favourable, either later the same day or on one of the following days. We visit this region when the weather is most favourable but please be aware there can be bad weather during the trekking season from time to time. In some cases, the weather may be too bad for planes to fly but helicopters can operate, as they can fly in less favourable conditions. Should it be required, the cost of helicopter hire must be covered by you as changes due to weather are outside the control of Earth's Edge and as per our booking conditions, we don't cover costs associated with changes outside our control (Force Majeure). The cost of helicopter hire is not fixed but should cost in the region of €80 - €300 per person per flight.

Whilst on the trail, wifi and hot showers are available in some tea houses at a cost of approx €5 each. Drinking water is provided by Earth's Edge on each day of the trek, this water is filtered and treated with purification tablets. If you wish to change the flavour of the water it is recommended to use electrolyte tablets/sachets or add concentrated flavour drink.

[Back to Top](#)

**Weather:**

Temperatures on the expedition may vary from 0 to 30 degrees during the day and -20 to 10 degrees at night. It's best to be prepared for lower temperatures due to wind chill or the weather turning bad. Usually the days are hot and the nights are cold. You should be ready for inclement weather at all times as the weather can change rather quickly at high altitude. For accurate weather information please review these two websites;

Mountain Forecasts: [www.mountain-forecast.com](http://www.mountain-forecast.com)

Norwegian Meteorological Institute: [www.yr.no](http://www.yr.no)

[Back to Top](#)

### **Altitude Considerations:**

The human body is quite capable of adapting to a very wide range of barometric pressures and there is plenty of oxygen even at the highest point of this expedition. However, the process of adaptation or acclimatisation does take time and the most important rule is to gain height slowly. Keeping well hydrated is also a huge factor in avoiding AMS (Acute Mountain Sickness). You will be encouraged to drink at least three litres of water per day. Five litres per day is ideal. You should eat well, snack regularly between meals and do not under any circumstances try to diet on this expedition. This will keep your energy levels high throughout the expedition. Although frustrating at times, remember to keep your walking pace slow and steady which will in turn have the same effect on your heart rate. It is those who can set and maintain the correct pace on the approach days that are strongest at higher elevations.

AMS is brought on by lower oxygen levels at higher altitudes. Symptoms include breathlessness, headache, poor sleep, nausea & dizziness. AMS is treated simply by not ascending to higher elevations or in more severe cases descending to lower elevations, where in most cases the symptoms are quickly relieved. This itinerary has been designed to minimise the chances of you experiencing altitude sickness. Our staff are highly experienced in these matters and will be able to give you good advice to help minimise any temporary discomfort that you might experience. Please note it is common for most people to experience mild headaches at higher elevations. Always keep your expedition leader and doctor informed on how you are feeling.

At high altitude, and especially in dry conditions, it is essential you protect your airway. This means walking with a bandana covering your mouth and nose, often in hot weather, or when you are breathing heavily. Getting used to covering your airway while walking takes some time, so you should practice prior to departure.

Diamox (Acetazolamide) is a carbonic anhydrase inhibitor. In simple terms Diamox causes the kidneys to excrete more bicarbonate which causes the blood to become more acidic. Acidifying the blood stimulates ventilation, which increases the amount of oxygen in the blood which reduces the chances of getting AMS. We recommend all participants especially those who have had AMS in the past to take Diamox prophylactically (as a preventative) on this expedition, starting on the first day of trekking. Current guidelines suggest 125 mg twice per day (in tablet form not capsules). You should try taking Diamox for two days at some stage prior to departing Ireland to ensure you don't suffer any of the more serious side effects. Numbness and tingly fingers and toes are common but in some cases users can suffer from nausea, vomiting or diarrhoea. If you experience any of the latter three side-effects we would advise against using Diamox. Always consult and follow the advice of your own doctor about Diamox or any other medication.

[Back to Top](#)

### **Your Medical History:**

When you book an expedition with Earth's Edge an account is generated for you on our website. You will receive login details for your account via email at the time of booking. You need to log on to your account and complete your medical declaration. Once you login, click on required information to access your medical declaration. It is for your own safety that we require you to disclose as much detail about your medical history as possible. The information you supply is treated with the strictest confidence. We will do our best to accommodate everyone on this expedition, but we do reserve the right to refuse participation if we feel your safety or that of the group may be compromised. All participants on Earth's Edge expeditions are required to have a consent form completed by their own doctor. We recommend you do this at the same time you see your doctor for travel vaccines (if required). The Doctor's Consent Form can be downloaded from your Earth's Edge account.

[Back to Top](#)

### **Your Dietary Requirements:**

We will try our best to cater for those with dietary restrictions. If you have any dietary restrictions, please declare them when completing your medical declaration on your Earth's Edge account. You will receive login details for your account via email at the time of booking. You need to log on to your account and complete your medical declaration. Once you login, click on required information to access your medical declaration. We will organise for you to have a suitable meal on your flight where meals are supplied by the airline. It is not possible for us to source specialist gluten or dairy free products locally. We will endeavour to provide suitable alternative carbohydrates, for example potatoes or rice rather

than bread. If you want to have specialist food like gluten free bread and pasta or lactose free milk you will need to bring them with you on the expedition.

[Back to Top](#)

### **Vaccinations & Prophylaxis:**

We are not qualified to answer all your questions about travel health directly. We recommend consulting your GP or The Travel Health Clinic ([www.travelhealth.ie](http://www.travelhealth.ie)) for the most up-to-date medical advice. You will find Vaccination and Prophylaxis Advice for this destination on your Earth's Edge account. When you book an expedition with Earth's Edge an account is generated for you on our website. You will receive login details for your account via email at the time of booking.

[Back to Top](#)

### **Tourist Visa:**

At the time of writing, EU passport holders were able to obtain a tourist visa upon arrival in Nepal. The visa fee is approximately US \$50 payable in cash upon arrival. You must have at least two free pages in your passport and ensure that your passport is valid for at least six months after you return to Ireland.

[Back to Top](#)

### **Travel Insurance:**

It is your responsibility to ensure that you have sufficient personal travel insurance for this expedition. Your policy must provide cover for; a) medical injury or sickness, b) trekking up to 6,189 metres, c) helicopter evacuation in an emergency situation, and d) repatriation to one's country of residence. You must declare any pre-existing medical conditions to your insurers and ensure you receive written confirmation that any pre-existing medical conditions are fully insured. We advise you to obtain travel insurance as soon as you book, that will cover you for unforeseeable circumstances such as illness or injury that might result in you not being able to take part in your expedition. We recommend Trailfinders for your travel insurance requirements as their policies cover a, b, c & d as above and include cancellation cover. To obtain travel insurance with Trailfinders go to [www.trailfinders.ie/insurance](http://www.trailfinders.ie/insurance) or call their travel insurance phone line +353 1 702 9102

### **Safety Standards:**

At Earth's Edge your safety is our priority. Your expedition leader is very experienced in the mountains and in international travel. All our expedition medics are qualified doctors with a keen interest in adventure travel and in expedition medicine. Each of our expeditions is supported by our Earth's Edge team of guides, cooks, drivers and muleteers/porters. We select our Earth's Edge team based on their qualifications, experience and references. Our expedition leaders and Earth's Edge team in each of our destinations are familiar with the locations of local medical services and hospitals. Our doctor will have an extensive medical kit with them but please carry a basic first aid kit yourself too (as detailed in the equipment list). Always listen to your expedition leader and follow their instructions.

We advise all participants to do their own research on local laws and customs before travelling to Nepal. Up to date travel advice can be found on the DFA website: [www.dfa.ie/travel/travel-advice/a-z-list-of-countries/nepal/](http://www.dfa.ie/travel/travel-advice/a-z-list-of-countries/nepal/).

Poor personal hygiene resulting in gastroenteritis (Delhi Belly) is the most common cause of illness on expeditions. The good news is that it is easily avoided if you remember to always wash your hands and apply hand sanitizer after going to the toilet and before touching food. Always use water fit for drinking to brush your teeth. While using showers or washing your face, try not to ingest any water. We recommend people eat as healthily as possible and take a multivitamin supplement and probiotics for one month prior to departure and during the expedition. This will help you adjust to changes in your diet and keep you healthy throughout the expedition.

**Why Choose Earth's Edge:**

We are the only company in the world who have an expedition leader and doctor on all expeditions while keeping group sizes sustainably small.

- A highly experienced expedition leader leads each of our expeditions. This ensures we consistently deliver professionally run expeditions. They will be there to offer you expert advice throughout your trip.
- An expedition doctor accompanies each expedition to provide industry leading medical support. Should you fall ill or have an injury they will be there to provide immediate medical care.

To read more about our safety standards please visit our [safety page](#).

- We keep group sizes small to minimise our environmental impact and foster a strong group dynamic. Our maximum group size on most expeditions is 16 and our average group size is 13. On more challenging peaks our maximum group size is 12 and our average is 8.

Responsible travel is at the core of what we do at Earth's Edge and has been since our inception in 2007. As a certified B Corp we are committed to using business as a force for good to support our communities both locally and worldwide as well as create more environmental awareness. Visit our [B Corp page](#) to learn more.

We organise a number of environmental programmes and community projects here in Ireland and internationally. Our projects include;

- A scholarship to train porters to become guides on Kilimanjaro.
- Each year we plant 8 trees in Nepal for each person who travels with us in partnership with [Eden Reforestation Projects](#).

To read more about our sustainability practises please visit our [responsible travel page](#).

- We are a 100% Irish owned small business. Our MD, James McManus, is involved in the daily running of the business and also leads three to five expeditions per year.
- We are a fully licensed and bonded company. As we are based in Ireland, we are licensed with the Irish Aviation Authority (IAA) in Dublin, our licence number is 0711.
- Detailed risk assessment and management systems, including evacuation plans, are put in place prior to each expedition. Our Earth's Edge HQ team provide 24/7 phone support to each expedition.
- We run training weekends two months prior to each expedition, which includes a full expedition brief, two training hikes and expert advice from an Earth's Edge expedition leader.
- We have clear and transparent pricing. What's included and excluded from your package is made clear prior to booking.
- All of our office team travel on one expedition per year which means they can answer your questions based on first-hand experience.

- When you sign up to an Earth's Edge expedition you are entitled to a discount from our equipment partners at [Great Outdoors](#) to ensure you get the best gear for your expedition.
